

# Decarbonization Goals of the Philippines

13 February 2025  
7<sup>th</sup> Government-Private Forum on CEFIA  
Kobe, Japan

# Achieve Net-Zero Emissions by 2050

The Philippines is committed to reducing greenhouse gas emissions in alignment with the Paris Agreement's climate goals.

## RENEWABLE ENERGY

**35%**

RE share in the power  
generation mix by 2030 and

**50%**

by 2040

## ENERGY EFFICIENCY

**10%**

energy savings on oil  
products and electricity by

**2040 up to**

**2050**

## Potential Regional Cooperation Initiatives

Accelerating decarbonization RE and EE innovations

- Joint research and capacity-building programs on RE and EE;
- Grid integration and off-grid solutions for the Philippines; and
- Policy development on incentivizing decarbonization efforts and adoption of clean technologies.

## Potential Topic for the Next CEFIA Flagship Project

- Scaling up RE integration and energy storage system for remote areas in the ASEAN region; and
- Government support and policy alignment to streamline energy-efficient solutions.
