

SINGAPORE'S INDUSTRIAL ENERGY EFFICIENCY REGULATORY POLICIES

The **industrial sector** is our **key engine of economic growth**, providing **employment** to much of our workforce. However, it also accounts **for the majority of our emissions**.

Improving IEE is a key strategy towards a low carbon economy

SINGAPORE'S APPROACH TO IMPROVE INDUSTRIAL ENERGY EFFICIENCY

1. Regulations and standards

- **Energy Conservation Act (2012/ 2018)**
 - Singapore Certified Energy Manager training programme
 - Minimum Energy Performance Standards
 - Minimum Energy Efficiency Standards

2. Enhancing capability building measures

- **Energy Efficiency Opportunities Assessor Certifications**
- **Energy Efficiency National Partnership Scheme**
- **Energy Efficiency Technology Centre**

3. Financial incentives

- **Energy Efficiency Fund**
- **EDB Resources Efficiency Grant for Emissions**
